

# Germ-O-Ray®

FROM THE MANUFACTURERS OF INSECT-O-CUTOR®

## WALL MOUNTED AIR DISINFECTION FIXTURES FOR ENHANCED INDOOR AIR QUALITY ( IAQ )

CONSTRUCTION FINISH:  
SAND BEIGE TEXTURED GALVANIZED STEEL

Wall mounted Germ-O-Ray® fixtures provide air disinfection within specific areas/rooms such as laboratories, waiting rooms, shelters, hallways, and other public gathering places. Air disinfection is achieved as a room's natural convection (the circulating of air as it heats and cools) carries airborne contaminants across a wall mounted fixture's light plane. Fixtures must be mounted at least 7.0 feet from the floor (2.1 meters).

### Special design features to notice about Germ-O-Ray Air Disinfection include:

- Energy-efficient components, electronic ballasts and T-8 lamps;
- Safety features such as a built-in "On/Off" toggle switch;
- Testing and listing by Electrical Testing Laboratories® (ETL®);
- And, non-ozone producing lamps.

MODEL GW181

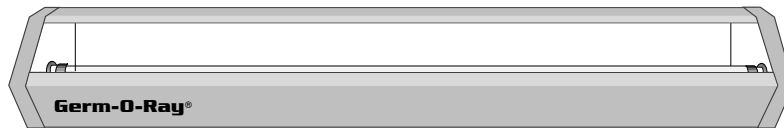

Germ-O-Ray Air Disinfection Fixtures are safety-labelled on end panel and on back.

### ONE YEAR LIMITED WARRANTY

A One Year Limited Warranty, available to the original purchaser, covers all defects in your Germ-O-Ray® Air Disinfection Fixture caused by faulty material or workmanship, excluding the ultraviolet lamps[s]. For complete details, please contact us directly.

**DISCLAIMER:** UVC energy may discolor materials including (but not limited to): paints, wallpapers, fabrics, and ceiling tiles.

MODEL GW361 (Not to scale)

### TECHNICAL DATA AND SPECIFICATIONS — UNIT MUST BE GROUNDED (120 VOLTS, 60 HERTZ)

RE-ORDER REPLACEMENT PART .....	GW181 .....	GW361
ELECTRONIC BALLAST: .....	REL1 .....	REL1
GERMICIDAL LAMP NUMBER: .....	18G .....	36G
