

**SCATTER-FREE GLUEBOARD FLYTRAPS
— HANGING MODEL GBH362 —**

<u>MODEL NUMBER</u>	<u>BLACK LIGHT ATTRACTION LAMPS</u>	<u>STICKY BOARD SERIES</u>	<u>METAL MATERIAL</u>
GBH362	TWO 36	GB4	STAINLESS STEEL

Guardian® Hanging Glueboard Fly Traps lure flies and other flying insects with UV black light lamps to sticky glueboards (discreetly concealed in the unit) ; capture and containment is silent and invisible.

Guardian® Hanging Models are equipped with energy efficient ballasts, two 36" black light lamps, and 6 Ft. (1.83 meter) electric cord with plug. Glueboards are included. For best results, attraction lamps should be directly visible to an insect's flight path. Continuous (24 hour) use is recommended.

Insect-O-Cutor® Guardian® Hanging Glueboard Fly Traps are ideal for use in areas where other insect control devices are inadequate or disallowed due to the proximity of open products and processing areas.
